    <section>
      <h2>Internet Protocols</h2>
      <p>The Internet operates using several key protocols,
including:</p>
      <ul>
        <li>HTTP/HTTPS - Used for accessing web pages</li>
        <li>TCP/IP - The foundation of data transmission</li>
        <li>DNS - Translates domain names to IP addresses</li>
        <li>FTP - Used for file transfers</li>
      </ul>
    </section>

    <section>
      <h2>Web Protocols</h2>
      <p>The web relies on specific protocols to function
efficiently:</p>
      <ul>
        <li>HTTP/HTTPS - For transferring web pages</li>
        <li>HTML - The standard markup language for web pages</li>
        <li>CSS - Used to style web content</li>
        <li>JavaScript - Enables interactivity on websites</li>
      </ul>
